Re: Kodalux Processing Lab, Fairlawn, NJ; NJDEPE Case 90 07 12 SP01

Dear Mr. Gabriel:

The New Jersey Department of Environmental Protection and Energy (Department) is charged with responding to the release or threatened release of hazardous substances and with the enforcement responsibilities under the Spill Compensation and Control Act (N.J.S.A. 58:10-23 et seq.). The Department has documented the release of hazardous substances at the Kodalux site located at 16-31 Route 208 N, in Fair Lawn Boro., Bergen County, New Jersey (Block 4801, Lot(s) 1). The Department has also determined during its investigation that the Kodalux Processing Laboratory is a potentially responsible party for the hazardous substances at the subject site.

At this time, the Department wishes to offer the Kodalux Processing Laboratory the opportunity to conduct remedial activities at the site under a Memorandum of Agreement, as part of the Department's new Voluntary Cleanup Program (a description of which is attached).

If the Kodalux Processing Laboratory wishes to participate in the Voluntary Cleanup Program, please complete and submit the enclosed Memorandum of Agreement (MOA) application to the Bureau of Field Operations, Site Assessment Section at the address listed on the application.

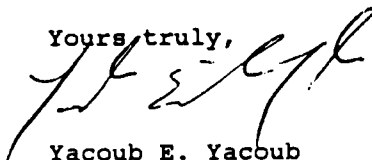

If the response is not received within thirty (30) days from the date of this letter, the Department will assume that the Kodalux Processing Laboratory does not want to participate in the program.

If you choose not to participate, your site will be prioritized and you will be contacted when the site reaches the top of the priority list. At that time you will be asked to sign an Administrative Consent Order (ACO) which includes strict timeframes for completing required remedial work and penalties if the timeframes are not met. You will also be required to post financial assurances to cover the cost of remedial activities.

If there are any questions regarding the program, please contact me at (201) 669-3960.

Yours truly,

A handwritten signature in black ink, appearing to read 'Yacoub E. Yacoub', written over the typed name.

Yacoub E. Yacoub
